

# Tough Management Job Interview Questions

Management job interview questions are designed to explore the candidate's management-related competencies and personal management style.

Popular manager interview questions are outlined with practical answer guidelines to help you prepare for your management interview.

The typical manager interview focuses on six main areas of competence. These are the abilities that a successful manager displays, regardless of age, gender, industry or organization.

Expect interview questions that explore your ability to make decisions, delegate, develop and motivate staff, communicate effectively and manage work tasks.

## Management Competencies

Behavioral management job interview questions will be asked to determine the candidate's level of competency in key areas. Prepare for your interview by viewing these interview questions with answer guidelines at [behavioral manager interview questions](https://www.best-job-interview.com/behavioral-manager-interview-questions.html)

## Management Style

Expect interview questions that explore your personal management style. These questions look at how you relate to employees and how well you fit with the company. The interviewer is looking for a manager that can work well with the team and complement the current management style of the company. Interview questions include:

*What management style have you found to be the most effective?*

*What type of people do you enjoy working with?*

*Is there anything about your management style you would like to change?*

## Management Today

Management job interview questions will include those that investigate your understanding and knowledge of what management means in the context of today's changing business environment. Expect questions like:

### **What do you consider to be the most challenging aspect about being a manager in business today?**

There are a number of complex challenges that managers now face including having access to fewer resources, managing more specialized and more diverse teams and having to operate within a constantly changing and highly competitive environment. Relate your answer to the knowledge you have of the job, the company and the industry.

### **What are the most critical skills a manager needs to succeed in today's business climate?**

Refer back to the key behavioral competencies for a management position. Relate them to management tasks that are impacted on by current economic conditions, such as planning and executing, cost-control, developing and motivating employees and communicating and managing change.

### **What important trends have you picked up recently in our industry?**

Be prepared with two or three trends that demonstrate your knowledge of the industry.

Consider technological challenges and opportunities, current economic conditions and demands and growing competitiveness.

## Professional Development

Your approach to personal and professional development will be evaluated with manager interview questions such as:

*What is your favorite management book?*

*What management courses have you attended recently?*

Be prepared to show how you have actively sought out new knowledge to enhance your management ability. Demonstrate a proactive approach to self development.
